

## PRODUCTS FOR AUTOMATION & METERING

Engineered Solutions for Oil & Gas Industry

## ***INVENT IMAGINATION***

We have been committed to highest standard of business conduct since our founding in 2017. Performance culture based on trust & integrity. This is result of being open minded and strong believer. We listen to our coworkers' ideas, then add our thought to see if we can build that idea into a more valuable contribution; and we trust our suggestion will receive the same respectful treatment. At UNOAM CO, every new ideas are welcome, enriching the confidence and goodwill among employees and customers.

## FROM THE MANAGING DIRECTOR

Welcome to UNOAM CO automation & metering solution ! Thanks you for the interest in our products. We are pleased to present you with this overview of our outstanding portfolio of products and services we offer. Inside these pages you will find products that solve your problems, provoke ideas, or raise your awareness of the broad range of products we have available to meet a myriad of applications and service conditions.

When you look inside UNOAM CO products you will find more than just iron & steel. There you will find the latest technology in design, metallurgy, casting & machining all founded on our operational excellence principles that drive out waste and increase repeatability. In the long run, we strive for competitive products that meet or exceed your specification, and are delivered to you on-time. Our formula of success has been quality and performance.

The people who design, manufacture, purchase, build, ship, quote, sell and support the products are dedicated to providing you with the best products at the lowest cost of ownership. We work hard, because we know your processes demand it. From simplest service to most critical process in your facility, UNOAM CO based on trust you instilled, technology desired as per latest innovation available in modern day market, we deliver solutions you entail.

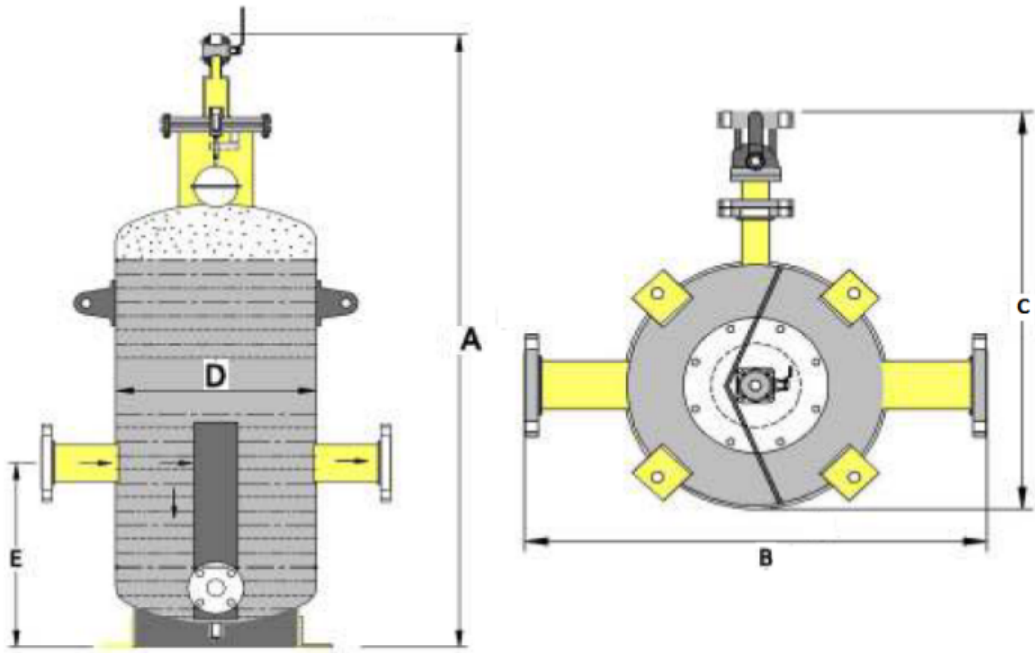

Gorprit Singh  
Managing Director, UNOAM CO

# Air (Vapour) Eliminator

- It is use to elimination of air from the Liquid, without allowing the contained liquid to escape.
- To ensure accurate liquid Measurement, it is necessary to remove all air from the system before entering into the measuring devices.
- Hence Air Eliminator is installed before the meter for accuracy of the measurement devices.
- Sizes offered: 1/2" to 24" Class 150 to 600#.
- Design as per ASME Section VIII Div.I
- MOC: IS2062 / A516 / SS304 / SS316

Size	A	B	C	D	E	Approx. Volume
INCH	Total Height	End to End Dimension	End To End Drain Valve	Diameter	Nozzle Height	LTRS
1.5	1380	600	530	323	310	50
2	1380	600	530	323	310	50
3	1380	800	750	457	460	135
4	1630	970	880	610	500	240
6	1760	1200	980	711	600	360

# Strainer cum Air (Vapour) Eliminator

- It is use to elimination of impurities,vapour and air from the Liquid, without allowing the contained liquid to escape.
- To ensure accurate liquid Measurement, it is necessary to remove all air & alien particle from the system before entering into the measuring devices.
- Hence Strainer cum air Eliminator is installed before the meter for accuracy of the measurement devices.
- Sizes offered: 1/2" to 24" Class 150 to 600#.
- Design as per ASME Section VIII Div.I
- MOC: IS2062 / A516 / SS304 / SS316

Size	A	B	C	D	E	Approx. Volume
INCH	Total Height	End to End Dimension	End To End Drain Valve	Diameter	Nozzle Height	LTRS
